

PTL GROUP GAINS ISO 9001:2008

PTL GROUP

Shanghai, 22 November 2010

Achieving ISO 9001:2008 certification

Following a process lasting almost two years, PTL Group has had its work processes accredited to the internationally recognized quality management system standard, ISO 9001:2008.

"Achieving ISO 9001:2008 certification is an important milestone for PTL Group. This certification illustrates to customers our strong commitment to quality at all levels of our organization." said Zvi Shalgo, Chairman and CEO. "Customers want to be confident that they are doing business with an organization that can meet or exceed their needs in a timely manner. Successfully completing the rigorous process required for certification is a clear sign that we are devoted to continually improving our quality management systems."

"In working towards this award, we have analysed and challenged every aspect of PTL Group's operations, involving every employee and a number of clients. This has resulted in many improvements to both what we do and how we do it," he continued.

The award was made through NQ Global Assurance, a leading assessment, verification and certification body and works in partnership with a wide range of businesses to help improve performance in quality, environment and health and safety management. In the future the audit will be performed every twelve months from the date of certification to ensure maintenance of standards.
